

Week 1

(0:00)

Introduction

(0:05)

What Does it do?

`lesson-plans/code_snippits/what-does-it-do.py`

(0:15)

Codespaces

`T: plans-supplemental/github-code-spaces.md`

(0:35)

Hello World

`TLE: Programming-101/1-hello-world.md`

(0:55)

Homework

1. Write a program that prints a haiku about programming.

https://en.wikipedia.org/wiki/Haiku_in_English

- Acceptance criteria:
 - It can be silly but must follow the 5 - 7 -5 pattern across 3 different lines.
 - The program needs to be saved in folder

`/CodingLessons/homework/haiku.py`

- Extra credit : Make the haiku have extra spaces in the first and third lines.
